> Also Read What a Well-Known Cit zen Says About Being Cured.

An eminent physician has said:

"Catarrh is the source of a frightful list of diseases. It is silent and insidious in its ravages, but it pervades nearly every household and hovers like a pestilence over every hamlet and city in our land. Catarrh (and its legitimate consequences) have desolated more hearthstones, made wretched more happylives, and ended more brillant careers than all other diseases combined.

"Catarrh may end in deafness, blindness, loss of smell, loss of taste, or the entire loss of voice. Diphtheria, bronchitis, pneumonia, consumption and pleurisy begin almost always as the result of a catarrhal attack. The worst form of dyspepsia and Bright's disease of the kidneya are also the direct consequence of neglected cases of acute catarrh. "Even when the victims of acute catarrh escapes all of the above-mentioned liabilities, there remains the great probability of its ending in chronic catarrh. It is beyond the descriptive powers of lasguage to portray the peculiar misery of a subject of chronic
